THE
CRYSTAL PALACE COMPANY.

REPORT
OF THE
DIRECTORS TO THE SHAREHOLDERS
AT THE
GENERAL MEETING,
JUNE 30TH, 1858.

COPY OF ADVERTISEMENT.

CRYSTAL PALACE COMPANY.

Notice is hereby given that the Sixth Ordinary General Meeting of the Shareholders of the Company will be held at the Bridge House Hotel, Wellington Street, London Bridge, on Wednesday, the 30th June instant, at One o'clock in the Afternoon precisely, for the purpose of receiving a Report from the Directors, and of transacting the ordinary business of the Company, as prescribed by the Deed of Settlement and Charter. At the said Meeting a Resolution will be submitted to repeal or otherwise alter that portion of the 4th section of the Deed of Settlement which provides that no Shareholder shall be eligible to the office of Director unless at the time of the election and for six calendar months next previously he shall have been registered as the proprietor of the number of Shares prescribed as forming the necessary qualification for a Director.

The Books kept by the Company for the registration of transfers of Shares will be closed from Wednesday the 16th to Wednesday the 30th instant, both days inclusive.

Dated this 12th day of June, 1858.

By order,

GEO. GROVE, Secretary.

Crystal Palace, Sydenham.

[1505]

Bradbury & Evans, Printers, Whitefriars.

DAVID OGILVY Esq. *Sydenham.*

DAVID PRICE Esq. *16 Gresham Street West.*

HENRY DANBY SEYMOUR Esq. M.P. *39 Upper Grosvenor Street.*

CAPTAIN EDWARD WALTER, *37A Upper Grosvenor Street.*

REPORT of the Directors to be submitted to the Meeting of Shareholders to be held at the Bridge House Hotel, Wellington Street, London Bridge, at One o'Clock on Wednesday, the 30th June, 1858.

THE accompanying Revenue account for the year ending the 30th of April, 1858, shows a gross balance to its credit of £35,073 17s. 10d. After deducting all Preference charges for dividend and interest, the General Revenue account shows an available Balance of £13,799 8s. 6d. The Directors recommend that this Balance should be carried over to the next half year—and if this be done they hope, with the prospects of the present Season, to be able at the meeting in December next to submit a proposal for payment of such a Dividend on the ordinary Shares as will be satisfactory to the general body of Proprietors.

The Accounts now submitted have been prepared on a different plan from that heretofore adopted; and while they show the result in a more concise form, full details will be found in the accompanying Abstracts; and the form now adopted will, it is hoped, prove acceptable to the Proprietors.

A considerable reduction has been effected in the past year under all the ordinary heads of Expenditure, and the Directors trust that a still further reduction may be attained by a strict and vigilant superintendence over all departments, without in any way impairing

the efficiency or high character of the undertaking. This is a subject which will continue to receive the unceasing attention of the Board.

In regard to the receipts for the past year, it is satisfactory to observe that the gross amount exceeds that of the previous year. But this is in a measure to be attributed to the Handel Festival, which can only be regarded as an exceptional occasion. At the same time, the large receipts from this source may fairly be supposed to have infringed somewhat upon what would otherwise have been received from Season Tickets, and other ordinary sources of revenue.

On the other hand, the expenses of the Festival were very large, but still leaving, as the accounts show, a satisfactory balance in favour of the Company, and such as to lead to a reasonable expectation that the Grand Commemoration Festival of next year will prove highly remunerative, especially as a large amount of the expenditure for that occasion will have been already provided for.

In reference to the Six per Cent. Debenture Stock, the Directors have pleasure in stating that there has been appropriated to this date about £140,000, and the accounts show that £84,251 5s. was received in cash to the 30th April last on account of this Stock, and which has been applied in paying off temporary Loans and Debentures falling due. The Directors are open to receive applications for the balance of the £250,000 of this Stock authorised to be raised by the Resolution of the General Meeting of 30th July, 1857, and they confidently recommend the Shareholders by themselves and their friends to take up this Stock, the security for which is considered by the Board to be undoubted.

The Directors regret to state that their efforts to procure a reduction of the Capital of the Company, and to effect an arrangement for the Sunday opening, in terms of the proposal submitted to the last meeting, and so generally approved by the Shareholders, have been frustrated through the intervention of the Court of Chancery; an injunction having been obtained at the instance of a Shareholder in the Company, to restrain the Directors from carrying out the proposed measure. Although the Directors are advised that the soundness of the Vice-Chancellor's decision may be questionable; yet they do not recommend any appeal therefrom, or further litigation on the subject. A very important point however has been gained in the discussion, by the Vice-Chancellor's admission that the opening of the Palace and Grounds to *Shareholders* on Sunday afternoons is not liable to legal objection. Under these circumstances, the Directors consider it

desirable to abandon altogether the scheme last proposed, as they do not see their way to carrying it out with any permanent financial benefit to the Company. The Directors consider that the question of the right to open the Palace and Grounds on Sunday afternoons is now defined, and that it is limited to the admission of Shareholders and their friends, provided the privilege is entirely gratuitous. How far it may be desirable, as a financial measure, for the Shareholders to permit the exercise of such a privilege, it is for them to determine.

The Contract for the supply of Refreshments having expired at the beginning of this year, the Directors advertised for Public Tenders, which resulted in their concluding a Contract with Messrs. Sawyer and Strange, on much more favourable terms to the Company than the previous one. The Directors have every confidence that this arrangement will be found to work beneficially for the Company and the Public, while the energy displayed by the Contractors leads to the expectation that the result will prove satisfactory to them.

The Directors have great pleasure in announcing that they have secured the exclusive services of Mr. Bowley, late Honorary Treasurer to the Sacred Harmonic Society, as General Manager to the Company. They have a firm conviction that Mr. Bowley's ability and zeal will be found successful in promoting the prosperity of the Company.

The following Directors retire by rotation, viz., Mr. Beale, Mr. Farquhar, Mr. Low, and Mr. Price. The Directors much regret that Mr. Beale feels himself precluded by other engagements from coming forward for re-election; but Mr. Farquhar, Mr. Low, and Mr. Price, being eligible for re-election, offer themselves accordingly.

The Directors propose to submit to the Meeting a Resolution to rescind the provision in the Deed of Settlement to the effect that "No Shareholder shall be eligible to the office of Director, unless at the time of his election, and for six consecutive months next previously, he shall have been registered in the Register of Shareholders as the proprietor of the number of Shares prescribed as forming the necessary qualification for a Director."

The above provision is a very unusual one, and seems to present an unnecessary obstacle in the way of strengthening the Direction from time to time. The qualification of Directors, viz., the holding of 100 shares in the Company, will remain as heretofore.

By Order of the Board,

THOS. N. FARQUHAR,

Chairman.

June 21st, 1858.

AUDITORS' REPORT.

To the Shareholders of the Crystal Palace Company.

The result of our audit of the accounts of the Company for the year ended 30th April, 1858, is, that we are enabled to certify that we have found them accurately kept, and duly supported by vouchers, and that the Balance Sheet and other statements now presented, are correctly deduced from the books of the Company. The expenditure is of a very multifarious character, yet, being subdivided in the books under a great variety of heads, is susceptible of any classification that may be considered expedient, with the view of conveying to the Shareholders a full knowledge of the amount applicable to each department: the form in which the accounts are presented has been settled by a Committee of the Directors, who have also thought it desirable to accompany the general statements with voluminous abstracts of details.

In the General Revenue account will be found the sum of £3063 18s. 10d., and in the Capital account the sum of £28,023 charged to those accounts respectively in pursuance of the recommendation of the Directors in their last Annual Report, and adopted by the Shareholders: the former sum represents the extent of the frauds committed by Robson against revenue, and the cost of the consequent investigation and prosecution, while the latter represents the addition to the amount of Stock entitled to dividend resulting from those frauds, and for which the Company has not received value: from the improved system of checks, both in the share and general accounts now in operation, there is every reason to believe that the Shareholders are amply protected against the recurrence of any similar loss.

The only other matters to which we think it desirable to call attention, as arising out the accounts, are the Opera Concerts and the Handel Festival.

Assuming that one moiety of the £2 2s. 0d. tickets is to be credited to the Opera Concerts, the receipts under that head during the past year amounted to £10,453 10s. 6d. and the special outlay to £9194 14s. 0d., leaving a difference of only £1258 16s. 6d., in favour of the Company; but having regard to the indirect operation on the revenue of the conditions under which the speculation was conducted, it is matter of doubt whether the figures indicated represent a positive gain to the Company.

It would be out of our province to enter upon a discussion of those conditions, which involve a great variety of considerations, but we think it our duty thus to point the attention of the Shareholders to the subject.

With regard to the Handel Festival, although, owing to the impossibility of exactly estimating the indirect effect upon the revenue of the incidents of the speculation, we cannot arrive at a precise statement of Profit and Loss, yet it is satisfactory to find from the figures representing the direct result, that a large gain has undoubtedly been produced—thus:

Amount of Receipts	£23,372 17 3
Amount of Special Expenses	14,698 4 2
Apparent Profit	£ 8,674 13 1

The Special Expenses include one-third of the cost of erecting the Orchestra and the large Organ, and a charge for additional seats and chairs, together, £1690 0s. 10d.

QUILTER, BALL, AND Co.
